It is now believed that Mitchell and his backers will meet Coroett's representatives to-night or Monday in New Jersey to complete arrangements for the fight.

There seems to have been some misunderstanding, however, as to the time for the next sitempt at matchmaking, as Brady early this morning expected to meet Mitchell this afternoon.

QUEEN LIL'S VERSION,

Envoy Neumann Now Ready to Tell It at Washington.

He Hopes to Move the Senate Agains! Hawaiian Annexation.

Caller at Honoluiu Notes the Absence of Patriotism There.

WASHINGTON, Feb. 18.—Paul Neumann, the envoy of Queen Liliuokalanito the United States, accompanied by Prince David, of the roy al family, and two servants, reached the city late last night and took apartments at tue Richmond. Though worn and tired out after his tedious journey, Mr. Neumann, in a brief conversation, indicated partially what his course of action will be in his effort to induce the Senate to refuse to ratify the treaty for the annexation of Hawail, which it Low has under consideration.

Mr. Neumann regretted very much that he would not be able to see the President or Secretary Foster until next week. He realizes that he must submit the Queen's case to the Senators themselves, and to-day he will begin the work. He will ask the Senators to consider the papers which he has in his possession, and then, if after reading them and hearing all he has to say, they should word of complaint to make.

He regretted exceedingly that such undue haste as he characterized it, should have been used in sending the treaty to the Senate when but one side of the case had been heard, and no opportunity had been given the people of Hawaii, whom he represents, to submit their views on the matter.

Never before, he said, had there been an occasion like this, when such hasty action was taken on an ex parte case. When he reached San Francisco, Mr. New

mann said he telegraphed Secretary Foster to delay the matter pending his arrival in Washington.
He is confident, notwithstanding that the treaty has been hurried along so rapidly, that the Senate will, after hearing the con-
